

GUSTAVO BARROS

Vancouver, BC | 672-962-3227 | gustavofantinbarros@gmail.com | <https://github.com/GustavoFantin>

PROFILE

- Possess customer service experience and strong communication skills.
- Fluent in English and Portuguese.
- Dedicated and committed to delivering high-quality work.
- Fast learner, and eager to acquire new skills.

Skills

- TypeScript, JavaScript, SCSS, Astro, React, GSAP, Node.js, Express, EJS, MongoDB, PostgreSQL, GraphQL, WordPress.

Projects

- All Projects can be found in my github repositories.

Todo App with React | React, typescript, tailwind

This project was completed in just 4 hours as a way to practice React fundamentals. It was my first time using react-router-dom, allowing me to explore routing concepts. I also used Tailwind CSS to enhance my styling skills and build a clean UI.

Pong Game (Group Project) | Node.js, express, MongoDB, socket.io.

In this multiplayer Pong Game project, I developed the backend using Node.js, Express and MongoDB with Mongoose. I implemented custom routes for room creation, joining/leaving rooms, user login, signup, and authorization checks. Real-time communication as handled with Socket.IO.

ShopHaven | JavaScript, CSS, HTML

This project was built in one week as a college assignment, using JavaScript and Object-Oriented Programming. It features a fully functional shopping cart, dynamic product loading from an API, and a responsive design for both desktop and mobile.

Cine Toon | JavaScript, HTML, CSS, TheMovieDB API

This Movie & TV Website was developed using an external API (TheMovieDB) to fetch and display real-time data. The platform offers an intuitive interface for exploring movies and TV shows dynamically.

EDUCATION

Web Development Co-op Diploma | Cornerstone College
COC Leme High School

Sep 2024 - Present
Jan 2020 - Dec 2022
